TIBETAN PARLIAMENT-IN-EXILE

21|ཏཔ་ཐ།2020/27449

Your Excellency Donald Trump
President of the United States of America
The White House
Washington DC,
U.S.A

Dated: 28th December, 2020

Your Excellency,

On behalf of Tibetans in and outside Tibet and the 16th Tibetan Parliament–in–Exile, I would like to express my deepest gratitude to your Excellency for signing the "Tibet Policy and Support Act 2020" (TPSA2020). This ACT officially endorses that recognition of the reincarnation of the Dalai Lama is the sole authority of the great XIV Dalai Lama, the Tibetan Buddhist leaders and the Tibetan people with no interference from the Chinese Government (People's Republic of China). This ACT also recognizes the importance of the Tibetan Plateau and the threat that climate change poses on Tibet, the US will address and closely monitor Tibet's environment including water security and climate change. The ACT also commends His Holiness the great XIVth Dalai Lama for his great vision as a leader and for implementing a Democratic system of governance and for Tibetan people adopting it.

Furthermore, the ACT also forbids China from opening a new consulate in the USA until China allows a US Consulate in Lhasa, the Capital of Tibet. According to the Act, the US business companies and individuals must ensure their business activities in Tibet follows the UN Guiding Principles on Business and Human Rights. We are also thankful to Your Excellency for the inclusion of formalizing the funding for Tibetans inside and outside Tibet and also for the appropriations.

The People's Republic of China – the government has fooled the world by different means. Most recently it has fooled the world about the deadly Coronavirus Covid–19 which originated from the city of Wuhan in China. Due to their hiding the truth, the deadly virus spread across the world and killed millions of people and caused immeasurable damage for which China should be held accountable and punished accordingly. Your Excellency, we commend your courage in encountering China for their ruthless suffering caused to the people of the world and holding them accountable.

This is a historic moment for Tibetans, particularly our brothers and sisters inside Tibet and all the oppressed people in the world to rejoice and celebrate as it clearly shows that the US stands with the voiceless and oppressed people. Signing this bill into a Law (ACT) brought great hope and joy

for the Tibetans particularly our brothers and sisters who are still suffering under the brutal oppressive policies of China and it not only sends out a clear message to China that the US prioritizes principle human values above everything but it also pressurizes China from refraining their false propaganda tactics relating to Tibet's issues to the world. This bill has acknowledged that China which has been tagged as the world's most blatant human rights violator-has taken every measure to oust Tibet from the rest of the world by restricting foreigners, particularly the journalists from reporting on its inhuman acts, illegal killings, brutal repression, persecution and arbitrary arrest to the world is a country to be sidelined for its cruel strategies towards Tibet.

The United States of America has been among the pioneer countries in helping Tibetans to protect its unique culture and identity by welcoming HH the Dalai Lama since 1979 followed by the adoption of the US Tibetan Resettlement Project in the 1990s, the Tibet Policy Act of 2002, the Reciprocal Access to Tibet Act and the most recent TPSA2020.

Over the years, the Presidents of the United States of America have consistently supported the Tibet cause and we are immensely grateful for your indefatigable support in taking strong measures against China, a government that is economically the most powerful yet having the record of worst human rights violations.

We the people of Tibet are very thankful to your Excellency and urge your Excellency to continue your support till Tibet regains its freedom.

Yours sincerely,

Tibetan Parliament-in-Exile

Pema Jungney (Mr.)
Speaker
Tibetan
