Dear Gen Nakatani,

With profound pleasure I convey my heartfelt congratulations for your being appointed the Special Advisor on Human rights to the Prime Minister of Japan. Your appointment ensures Japan's commitment on human rights issues and this has given hope to the millions of people in the world who are suffering under the atrocities of despotic regimes including Tibetans.

I am hopeful that with your experience and expertise in the human rights issues, you will not only uphold but will also promote the inherent dignity and inalienable rights of human family, which is the foundation of freedom, justice and peace in the world.

Wishing you good health and success in all your endeavors.

Warmest Regards
